### Player Bio

I hope to someday play at the next level in college ball. As a student athlete, I continue to maintain a 4.0 GPA while taking AP classes and I have earned All-Academic since my freshman year. Aside from school and softball, I am also a volleyball player at Chapin High School. In the future I hope to accommodate a degree in pre med. I plan to attend a medical school after my first four years of college and proceed in a profession as a general surgeon.
