**2016** 1st Team All-League Pitching

## Player Bio

My goals for my college career include playing softball as well as earning a degree that will give me a solid future. I believe that I am a good fit for college softball because I have learned to take charge when my team needs me, think the game and give it my all, no matter the situation. I am somewhat a perfectionist and am hard on myself, but I also take instruction well from others. I am interested in teaching math, criminal justice or possibly coaching as a career.
